

## **Graphic / Architectural Technician Position**

Áit Urbanism + Landscape Ltd are looking for a qualified graphic / architectural technician to join our team. Our office is based in Newmarket Square in Dublin 8, in the heart of the historic Liberties area of Dublin City.

This exciting opportunity requires a dynamic candidate who is self-motivated and passionate about graphic design, 2D and 3D drawing and modelling, with a flare for producing exceptional graphics. Minimum 2 years experience working in private practice on a variety of project types and scales required.

Áit Urbanism + Landscape are recognised by their distinctive and consistent graphic style that is continually being developed with team input. The ideal candidate must be self-motivated with a commitment to the production of high-quality graphic presentation and communication and openness to continuous improvement as part of the team.

Excellent computer literacy is required in Revit, AutoCAD and SketchUp, Microsoft Office and Adobe Suite. Proficiency in spoken and written English is necessary.

The role will involve working within the wider team and producing 2D and 3D drawings, models, CGI's and graphics for small, medium and large-scale projects for private and public sector clients. The role will also require working with a graphic sub-consultant on our website design, management and updates.

We can offer flexible working hours, with remote working optional for the right candidate, as well as further additional employee benefits.

Salary: Salary will be negotiable, and commensurate with experience and skill level.

Please forward the following to Margaret Egan, Director, Áit Urbanism + Landscape, at [margaret@ait-place.ie](mailto:margaret@ait-place.ie) by 5pm, Friday 17<sup>th</sup> September :
